

## Your Brand. Our Technology.

VenueX is a technology partner that gives venues a new way to exceed client expectations, stand out from the competition, all while improving their business operations.

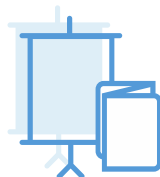

## How We Work Together

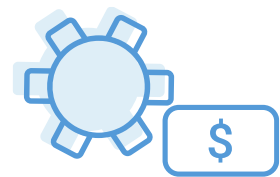

### Technology

Offer a modern experience with web & mobile apps that help your clients take the stress out of planning and organizing. All with the look and feel of the venue they trusted with their special day, *yours*.

### Sales

Increase sales by showing today's tech-reliant customers that you are a modern venue. An account manager will give your team the training and tools to help your clients understand the value of your technology.

### Operations

Increase margins and save time by helping your clients and staff improve the workflow for each event. Get seating charts on time, reduce the cost per event, track deposits and more without disrupting business processes.

## No upfront cost. No subscription. No risk.

- Our free, fast and easy on-boarding process lets you offer branded web & mobile apps without any of the work or expenses. No programming experience needed, VenueX is your app development team.
- Pay as you go. You're charged just for the events and clients that you add to the platform.

## Revolutionize your brand with technology.

- Evolve your brand and stand out from the competition by providing a tech-enabled hospitality experience that exceeds expectations.
- Leave a lasting impression on guests by giving them the opportunity to sign a digital guest book and upload photos & videos from the event through *your* mobile app.

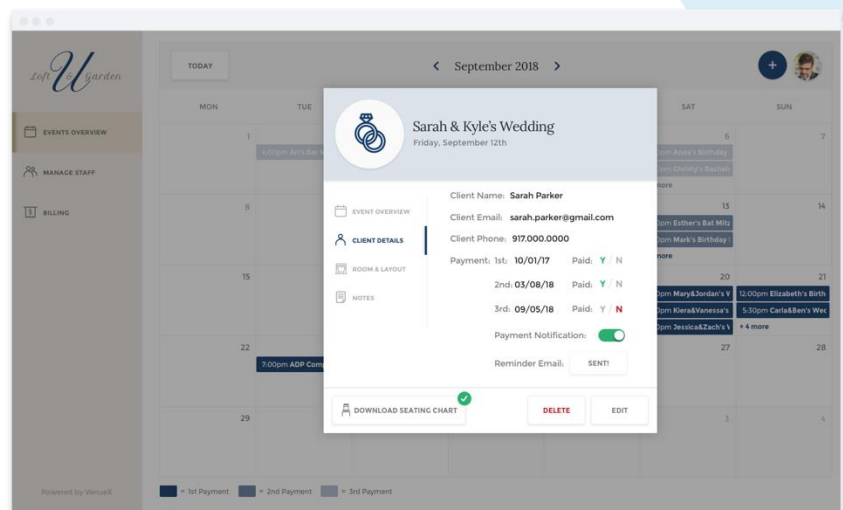

## Modern Hospitality

- Extend your customer service with technology. Give your clients the tools to track their budget, manage their guests from invitation to thank you card and more.
- Take the pain out of assigning tables for your hosts by providing them your seating chart as a convenient click and drag app.
- Help your clients view and save their guests' photos and videos with a private, shared album and digital guest book for every event.

## Operational Efficiency

- Track deposits and remind customers of payments in-app, without changing the way you get paid.
- Reduce any friction you face obtaining seating charts from your clients. Track their progress, update layouts and download the final version for your staff on the day of the event.
- Lower your costs with more accurate guest counts and fewer tables per event.
